

NanoTrends 2011

The 1st Forum on Trends in Nano-manufacturing

October 10-14, 2011, Hefei, China

Forum on Trends in Nano-manufacturing is calling for papers!

Topics of interest for submission include, but are not limited to:

1. Manufacturing at nano-scale based on physical/chemical/biological principle
2. Macroscopic manufacturing with nano precision
3. Manufacturing at multi-scales (nano/micro/macro)
4. Accuracy theory and metrology of nano-manufacturing
5. New principles of nano/micro manufacturing equipment
6. Nano devices/systems
7. Theory and modeling in nano-manufacturing
8. Future prospects of nano-manufacturing
9. Industrial application and standardization of nano-n

Keynote Speakers:

Registration Fee:

Before Aug. 31. 2011:

After Aug. 31. 2011:

Announcement for
